FIFTH COURT.

Last Of Season Held At
Buckingham Palace.

All Of United States Mission To
The Coronation There.

Names Of Those Presented To Their
Majesties On This Occasion.

London, June 13.—King Edward and Queen Alexandra held their fifth and final court of the season at Buckingham palace this evening. It was raining hard and a cold wind was blowing, and the weather was worse, if possible, than that which marked the four precedent nights of the previous courts. The royal party included Princess Victoria and the Prince of Wales. All the members of the special mission from the United States to the coronation of King Edward were present, and the officers were in full dress uniform. The Americans to be presented to their majesties were Whitehead Reid and Mrs. Reid, who were in the diplomatic circle; Gen. Wilson, U. S. A.; Admiral Watson, U. S. N.; Mr. and Mrs. J. Pierpont Morgan, Jr.; Mr. and Mrs. Edmund Barclay; Mrs. Wetmore; Commander Cowles, formerly the United States naval attaché at London, and Mrs. Cowles; Mrs. Lawrence Townsend, wife of the United States minister to Belgium; Lieut. Edward H. Watson, son of Admiral Watson; Col. Harp and Col. John Biddle, who accompanied Gen. Wilson.

PRESIDENT'S NOMINATIONS.

Lieutenant R. E. Peary To Have Rank
Of Commander.

Washington, June 13.—The president today sent the following nominations to the senate: August Casimir Wolff of Warsaw, consul of the United States at Warsaw, Russia.
Navy, surgeons to have rank of lieutenant commander, John M. Edgar and Philip Leach; Chaplain Sylvester D. Boerum to have rank of captain; Chaplain William H. L. Reaney and John B. Frazier to have rank of commander; Civil Engineer Ulysses S. G. White to have rank of captain; Civil Engineer Robert L. Peary, to have rank of commander; Civil Engineer Richard C. Holliday to have rank lieutenant commander.

DIXIE'S NEW STATUS.

She Will Be Fitted Out For Duty Both
As Hospital Ship And Transport.

Washington, June 13.—The navy department has decided to change the status of the transport Dixie, which recently returned from the West Indies. In looking over the plans for the big naval maneuvers of next winter it is found that a good hospital ship will be a very necessary adjunct to the great gathering of sailors and so it has been decided to fit out the Dixie for duty both as a hospital ship and transport. Lieut. Comdr. G. M. Stoney has been detached from the Oregon and ordered to command the government dispatch boat Dolphin.

PANAMA EXCITED.

Result Of Attack On The Rebels At Hagua-
pulea Is Anxiously Awaited.

Panama, June 13.—A schooner towed by the launch Aurora yesterday landed two hundred government troops at Chorrera, fifteen miles from Panama. A flotilla of eight sailing vessels started last night with reinforcements for Gen. Bert's troops at Pescaderias. Great excitement prevails here and will continue until the result of the attack of the government troops on the rebels at Hagua-pulea is known.

TIRED BUT WELL.

Scientists And Journalists En Route
From Martinique.

Basse-Terre, Saint Christopher, June 13.—Colonel Louis H. Ayme, the United States consul at Guadeloupe, George Kennan, Professor Angelo Hellprin, Mr. Varian and Mr. Jaccet arrived here this morning from Port de France, Martinique, on board the Quebec line steamer Pontabelle, which will leave tomorrow for New York. All the party are tired, but in good health.

DISASTROUS FIRE.

Employees Save Their Lives By Leaping
Into The Nets Held By The Firemen.

Philadelphia, June 13.—A fire today destroyed the newly constructed factory of H. M. Rosenblatt and company, a four-story brick structure at Second and Oxford streets, and resulted in severe injuries to a dozen persons. There were many

sational and narrow escapes. Most of the four hundred men and women employed in the factory saved their lives by leaping from the windows into nets held by the firemen. Mr. Rosenblatt estimates his loss at \$150,000 and the loss on the property will reach \$15,000.

BASEBALL.

The following is the result of the
baseball games played yesterday:

National League.

Boston-Pittsburg, rain.
Philadelphia 4, Chicago 0; at Philadelphia.
Brooklyn 3, St. Louis 4; at Brooklyn.
New York 5, Cincinnati 7; at New York.

American League.

Detroit 0, Baltimore 4; at Detroit.
St. Louis 1, Washington 11; at St. Louis.
Chicago 3, Boston 0; at Chicago.
Cleveland 4, Philadelphia 6; at Cleveland.

New England League.

Haverhill-Dover, rain.
Concord-Lowell, rain.
Lawrence 3, Fall River 1; at Lawrence.
Nashua 6, Manchester 1; at Nashua.

Tufts 10, Dartmouth 3; at Medford;
Newick pitched for Dartmouth.

MONTREAL HANGING.

Tickets of Admission Sold From 50 Cents
to \$10.

Montreal, Que., June 13.—Theosvold Hansen was hanged here this morning for the murder of Eric Marcotte, a nine-year-old boy, last autumn, in order to obtain some change, 17 cents which the boy was jingling in his hands. Hansen's neck was broken.

Tickets of admission to the execution were openly sold at prices ranging from 50 cents to \$10.

KITTERY POINT.

It is a pleasure to note what a fine job our road commissioners have recently done upon the highways in this part of the town. Many of the places which have been sadly in need of repairs have been put in first class shape and the work having been done so systematically and thoroughly, will last for some time. It seems a pity, with all the fine ledges available that the town cannot see the economy of buying a stone crusher and producing road building material that is of an enduring kind. The towns about us would be only too glad to purchase crushed stone of us had we a stone crusher. We are growing year by year to be unattractive summer resort and the number of our visitors is on the increase. They spend a large sum of money here annually. Why not build some good roads to attract more of them to come here and bring their line turnouts? It is known, too, that had we fine roads many of those who go elsewhere to build for summer and permanent residence, would come here. As we are, of so many natural advantages, a fine harbor and quick communication with the business centers of the world by trolley and steam, it behooves our townsmen to do all they can for the upbuilding and beautifying of this good old town.

The York county convention of the W. C. T. U. at Kittery last Friday was a most enjoyable meeting and largely attended. The local white ribbons turned out in full force and among those who took prominent parts were Rev. and Mrs. Morse and Mrs. Belle Hoyt. The entertainment provided was of the highest order, the musical selections being especially so.

Henry C. Neal of Boon Island light station was ashore a part of last week and was the guest of his brother, Joseph. His many friends are pleased to learn that he has been raised from second assistant to keeper and has been ordered to a light in the eastern part of the state.

The funeral services of Cora Ida, daughter of Mr. and Mrs. J. Percy Amee, will be held at the First Christian church on Monday afternoon at two o'clock.

PENSION CHANGES.

Washington, June 13.—The following pension changes resulting from the issue of May 23 are announced:

New Hampshire—Original, James S. Plaisted, Portsmouth, \$8; William H. Kehoe, Portsmouth, \$8; increase, restoration, release, etc., Thomas F. Foote, Franconstown, \$10; original widows, etc., Minnie L. Stover, Portsmouth, \$8; renewal widows, etc., Mary J. Brown, South Wolfborough, \$12; Sylvia E. Towne, Lebanon, \$12.

THE LIPTON CUP.

Chicago, June 13.—The Sir Thomas Lipton cup has arrived in Chicago and been turned over by the customs house authorities to the officers of the Columbia yacht club. The trophy, which is to remain in the possession of the club, was contested on July 4, 5 and 7, is a beautiful specimen of work and is valued at \$750.

CHANGE IN DATE.

An error was made in announcing the date of the strawberry festival at the Y. M. C. A. grounds on Thursday evening, June 13, and is under the auspices of the Young Men's Christian Association. The festival will be for sale and a hurdy hurdy will furnish music.

VERY EMPHATIC.

Major Waller Hasn't Much
Use For Samar.

"Hell Is A Winter Resort Compared To It," He Says.

Declares A Sunday School War There
Was Out Of The Question.

San Francisco, June 13.—Maj. L. W. T. Waller, U. S. Marine corps, who arrived here on the transport which also brought the battle-scarred remnant of the fighting Ninth Infantry, expressed emphatic views in the matter of the war in the Philippines.

"You cannot stop the revolution in the Philippines unless you take the severest measures," said Major Waller in an interview.

"You would hate to see your wounded and dead mutilated."

"I cannot describe the fearful condition in which we found some of the bodies of men under my command, who were murdered by insurgents."

"I received both verbal and written orders from Gen. Jacob Smith to kill all insurgents who were caught armed or who refused to surrender."

"It was the only thing that could be done and I never questioned General Smith's order with one exception. This exception I refuse to state."

"A fair estimate of the number of natives killed by the men of my command would be four to five hundred. These were all killed in battle, with the exception of 11 carriers, insurgents at heart who were tried by court-martial and shot."

"There was only one woman and she was only slightly wounded. She happened to be in the breastworks of a fort my men were storming."

"I have fought in every country in the world except Australia," said Major Waller, "but Samar—well, hell is a winter resort compared to Samar."

The major spoke huskily through a deep cold that he contracted during the home voyage on the transport, but he was obviously sincere. His eyes snapped at the mention of the island that Gen. Jacob H. Smith had expected him to convert into a howling wilderness.

"I left Samar a howling wilderness. They tried to make it that for us, but we made it a howling wilderness for them."

"Want any more of it?" he was asked. "No, I'm getting to be an old man now." His face relaxed. "I'm in my fifties. Besides, they've surrendered and it's all over. It's always all over when they surrender in the Philippines," and a sarcastic smile creased his face.

"Have you anything to say, Major, regarding your court-martial on the charge of executing Samar natives without trial, or was that the charge?"

"The charge against me," he said, "was murder. Yes, one plain word, murder; and as for having anything to say about the court-martial, of course I have. I objected to be court-martialed. It was not done at my pleasure. I was not consulted in the matter. I was simply court-martialed."

"I knew who caused that court-martial. I know who brought it forward. I know who was at the back of it all and Washington knows as much."

DEMAND FOR BARRELS.

Prospects For Apple And Peach Crop
Above The Average.

According to the reports received from all parts of the country by the manufacturers of all classes of fruit packages in this centre, the prospects for both the apple and peach crops throughout the United States are far above the average, particularly the former. A canvass of the situation among the manufacturers of both peach crates and barrels reveals the fact that the demand is much more active than usual at this time of the year. Inquiries during the past two or three weeks have been brisk from practically all sections of the United States, and a number of contracts have been closed. The best demand for barrel material has come from the Eastern states, particularly Pennsylvania, New York, Delaware, Virginia and West Virginia, and large shipments are being made into this section. Another section which is claiming a great deal of attention from the manufacturers here is the Ozark Mountain region, comprising Arkansas and Missouri. The prospects there for both peaches and apples are excellent, and already large shipments are being made from this centre into that territory. As a result of the scarcity of cotton wool and elm, which are used almost exclusively in the manufacture of the staves and hoops for apple barrels, prices are higher than they have been for a number of years.

REAL ESTATE TRANSFER.

The building on Market square occupied for so many years by True W. Priest has been transferred into the possession of the Portsmouth Savings bank and Mr. Priest is transferring his business to the Ladd street location recently bought by him.

COMFORT IN SHOES

Solid comfort and the height of fashion can be combined in moderate priced shoes, but the fact remains that that is rarely done.

Too many manufacturers and dealers have the short sighted habit of sacrificing prestige for the sake of large profits.

Our profits are small. Our shoes reach the maximum of comfort and style. We buy from conscientious manufacturers.

We repair shoes cheaper than anybody in town.

L. GERBER,

36 MARKET ST.

WARSHIP BUILDING.

"Why Shouldn't the Work Be Done by
the Government?" The Spirit of Fan-
euil Hall Meeting.

"If skilled labor in Charlestown can repair warships, they can build them; the government should construct their own battleships, for the government builds for cost, and private parties for profit."

Public spirit among the trade unions vented itself in full measure last evening in Faneuil Hall, says the Boston Journal, upon the subject of forwarding the restoration of warships building at the Charlestown navy yard. The audience was largely made up of members of the "Boiler-makers' Union and also ship mechanics."

Chairman Charles A. Sullivan, state senator from the Charlestown district, said that the Texas, one of the most powerful battleships in the United States navy today, and which was cried down by all the naval authorities when she was put to sea, was built at a government navy yard. It needed a battle, he said, like that of Sauldago to prove of what metal she was constituted, she being just as speedy and seaworthy as many of the prize winners from "cramps" shipyards. "If we get this right to build battleships in the Charlestown navy yard, great profit will come to skilled labor around Boston. And why shouldn't war vessels be constructed by the government? It may take a little longer time for the work to be done, but, in the end, it will be of great pecuniary benefit to the mechanics. Why not let those big bonuses that are now going to the cramps and the Union Iron Works, be divided up as wages among the American laboring man?"

Frank K. Foster denounced the contract system as one of the greatest curses to democracy. At times \$10,000,000 will be appropriated by congress for several battleships, and the cost will come only to about \$6,000,000. Whence goes the balance? Into the pockets of the private shipbuilders, as prize money. Why not give mechanics that have spent a lifetime to learn their trade some chance of earning this extra cash that drops into the coffers of the millionaire? It is a contradiction of the foundation principles of democracy to admit that the best work cannot be turned out by skilled men in Uncle Sam's employ."

REAL ESTATE CONVEYANCES.

Following are the conveyances of real estate in the county of Rockingham for the week ending June 11, as recorded in the registry of deeds:

Auburn—Elizabeth A. Wright, Woburn, Mass., to Emma J. and Edgar C. Cole, Manchester, land and buildings, \$1.
Chester—Page T. Long to Anna W. M. Marston, land, \$150; Edmund C. Wilcomb to C. S. Wilcomb & Son, standing lumber, \$425.
Danville—Mahala L. Griffin to Alva B. Collins, land, \$1, deeded in 1898; David S. F. Page, Haverhill, to George P. Pillsbury, Andover, Mass., standing wood and timber in Danville and Sandown, \$1100.

Deerfield—John L. Folsom, Epping, to Eugene Maynard, Nottingham, land and buildings, \$1, deeded in 1892.
Derry—Charles H. Parks, Boston, to

Grace Watts, land, \$1; John A. Walker, Jr., Manchester, to Louis Lewis, Chelmsford, Mass., land, \$1; Eliza A. Kimball heirs to Sarah D. Woodbury, land, \$1; Emma C. Boyd heirs to Caroline D. Gordon, land, \$1; John A. Walker, Jr., Manchester, to Charles W. and Bertha A. Merrifield, land, \$1; John Gagenheimer, Montgomery, Ala., to Arthur C. Davis, land and buildings, \$6000; Frank M. Stearns to George B. Smith and Charles C. Avery, lands, \$200; Sarah D. Woodbury to Mary A. Greenough, land, \$1.
Epping—Leland D. Kenniston et al. to Augustus D. Brown, land, \$1.
Fremont—Frank D. Rowe to James W. Wilkinson, land, \$1.
Greenland—John B. Lowd to town, land, \$50.
Hampton—John A. Towle to wife, land, \$1.
Hampton Falls—Helen F. Batchelder to William A. Janyrin, land, \$1.
Kingston—John F. Collins to Elvira C. Collins, land and buildings, \$1; Hattie A. Clark to last grantee, land and buildings, \$1; last two deeds executed in 1893; Hannah W. Crane to Leslie A. Collins, land and buildings, \$1000 deeded in 1899; last grantee to Carrie A. Webster, land, \$1, deeded in 1899; Annie L. Cilley to L. Waldo Collins, land, \$125.

New Castle—Mark Fernald, Portsmouth, to Joshua and Nathan White, Jr., land and buildings, \$239, deeded in 1766.
Newfields—Mary O. Folsom, Manchester, to Hannah S. Pike, land, \$1.
Nottingham—Jennie B. Nowell to Eugene E. Maynard, lands and buildings in Deerfield and Nottingham, \$1, deeded in 1899; last grantee to Newell P. Maynard, Raymond, same premises, \$1.

Portsmouth—John H. Mathes to George H. Thomas S. and Arthur M. Clark, rights in Daniel street premises, \$1; Charles W. Holmes to Warren P. Webster, land corner Elwyn street and Lincoln avenue, \$1; Emma L. Hall, Brookline, to Israel H. Washburn, land on New Broad street, \$1; last grantee to Duncomb M., and Daniel Brooks, land on New Broad street, \$1.

Salem—Administrator of estate of Varman A. Merrill to Thomas D. Lancaster, reversions in certain premises, \$37.50; town school district to Jacob W. Kelley, land, \$1; last grantee to last grantor, land, \$1.
Windham—Albert A. Morrison heirs to Daniel Roy, Lawrence, Mass., land and buildings, \$1.

EXETER HAS PLENTY OF COAL.

Exeter is unlikely to suffer severely from the restricted supply of coal, either of the hard or soft variety, except as buyers are compelled to pay an exorbitant price. The Exeter Manufacturing company has on hand practically a season's supply recently freighted up river from Portsmouth by the Anderson barges. The shoe factory and the Exeter Water works are both short, but confidently expect to be supplied, though at a slightly increased rate. The street railway company has 800 tons at Hampton depot, which Contractor Brown is delivering at the power station with all the expedition in his power.—Manchester Union.

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure; Doan's Ointment. Absolutely safe; can't fail.

BLOOMS THAT POISON

ODORS OF FLOWERS THAT ARE HARMFUL TO HEALTH.

Beware of the Poppy, as it contains Opium and induces Drowsiness. Tulips That Are Dangerous and Produce Light Headedness.

The majority of people think that the tulip has no smell, and this is true of a great number of the fashionable variegated kinds. The old self colored sorts, however, particularly those of a deep crimson hue, have a powerful odor, which is dangerous when inhaled. This odor is of saffron flavor and affects many people in a very peculiar manner. It breathed deeply, it has the effect of producing light headedness, which continues for some time, causing the sufferer to do and say all manner of remarkable and ridiculous things. Its influence often lasts for an hour or two and is followed by deep depression.

Another common flower whose odor has evil properties is the poppy. This is doubtless due to the quantity of opium which the blossom contains. Numbers of individuals, especially young ladies of highly strung temperament, complain of the drowsy sensation which comes after walking through a field of these flowers and afterward of violent headaches and a disinclination to move about. In Asia Minor, where the poppy is grown in vast quantities for the purpose of extracting the drug, tourists are frequently incapacitated for many hours after inspecting a poppy plantation, and two cases of death among English tourists were traced to the same cause last year.

All flowers grown from bulbs are dangerous in rooms where there is illness. Although bunches of flowers are invariably taken as presents to patients, such blooms as hyacinths, lilies of the valley, tuberoses and even daffodils and narcissuses should be carefully avoided. The perfume is as dangerous to a person in a critical state of health as a dose of morphia would be, without possessing the benefits which that drug sometimes confers.

Perhaps the most remarkable effect which any garden flower has on the human body is that which follows the handling of the particular variety of primula known as *obconica*. Experienced gardeners are always careful to wear gloves when potting this plant, as, should there be ever such a slight scratch or prick on the hands or fingers, evil results are almost certain to follow.

The first noticeable result is a slight itching of the hands and arms, and this is preceded by the breaking out of a skin disease which frequently extends to the body. It dies away in the autumn when the leaves fall, and by Christmas the sufferer is free, but the primula has by no means finished its deadly work. When spring comes again and the sap rises in plants and trees, the dread disease makes its reappearance and continues all through the summer.

This continues for many years, frequently for the whole of the victim's lifetime, and there is no known remedy for it, although years of the most rigid dieting have in some cases produced a diminution in its violence. If blood poisoning by the primula *obconica* does not take this form, it brings about the still more dreadful erysipelas. Cases of poisoning through eating the berries of the belladonna, or deadly nightshade, are all too frequent, but there is the gravest danger in even handling this attractive plant.

It is a very common practice in the country among parties of young people to pick the berries and flick them at each other with the fingers for sport. Then, when heated by the fun and fusillade, the face is sometimes mopped with a handkerchief upon which fingers sticky with the juice of the berries have been wiped.

Should but just a little of this get into one of the eyes a fearful calamity may ensue. It is, or paralysis of the iris of the eye, which invariably results in blindness, has been known to come on, and against this dread disease medical skill has as yet proved unavailing. This, too, is in fact of the paradoxical fact that treatment with tincture of belladonna is the one usually adopted in the elementary stages of iritis.

The dainty heroine who is so often to be heard of as idly plucking to pieces the petals of a flower must beware which blossoms she chooses for the purpose. Lilies, begonias, rhododendrons and peonies are likely to set up fevers, with consequent loss of finger nails, if treated in this way.—London Answers.

Russia's Many Holidays.

In addition to the fifty-two Sundays Russia has about thirty-nine holidays or feast days of the church. They are kept as rigidly almost as a London Sunday. Business ceases except in nooks and corners, while drunkenness, the bane of the Russian, cripples work for twenty-four or forty-eight hours after each feast. In round numbers there are thirty days on which the western world works while the Russian stands idle.—Scribner's Magazine.

Dog's Fate Not Such a Happy One.

Higgins—They talk of leading a dog's life as though anything could be more pleasant. A dog does not have to work for a living, and he does not have to dress and undress every day. Higgins—True; but think of the wretched plays that are tried upon the dog!—Boston Transcript.

The Backward Tenant's Peril.

The man who owes his landlord lives, figuratively speaking, over a volcano. Why? Because he is likely to be blown up.—Philadelphia Times.

OSTRICH TACTICS.

Big Bird That Displayed as Much Cunning as an Apache Indian.

A well known hunter and taxidermist tells this story of personal experience in South Africa; it goes far beyond dispeiling a slander that has long clouded the fair name of the ostrich:

Arriving at one of the monster bills of the white ant, I climbed upon it and raised my observation glasses to my eyes for a careful survey of the region. My first glance showed me, arising from the dead level of the plain beyond, two objects, each having the form of a capital S. These I knew were the heads and necks of two ostriches. Though I believed they had sighted me, I remained immovable until their necks were suddenly drawn down to the level of the tops of the bushes which screened their bodies. Then I knew for a certainty that they were aware of my presence and would make a quick retreat.

"Without losing an instant's time I ran to the spot where the birds had been standing and found their tracks. These I followed as far as they were distinguishable, and then took a course which I believed the birds would naturally follow. No sooner had I reached the top of the ravine than I saw one of the ostriches climbing the side hill. Estimating the distance, I took sight and fired. The ball passed immediately between his legs and struck in the sand of the side hill behind him.

"In an instant the bird darted away like an arrow in the direction of a small clump of bushes in the center of an open space. That he would pause behind this bush and then finally emerge on the other side seemed certain, and I aimed to catch him as he made a fresh start from behind the thorn. He flew over the sand at a terrific rate and reached the bushes. Then I waited fully five minutes for him to emerge from his hiding, with my rifle ready sighted so that I could pull the trigger the second he reappeared, but he did not come. He was, however, still in the bushes, and I waited until I reached the clump of bushes, an examination of the sand showed that the crafty old bird had shifted his course at a right angle, making the turn so suddenly that his feet had plowed up the sand for a distance of several inches. This wary tact had played the bushes between the bird and myself, and he had made his way to new cover while I was innocently waiting for him on the other side of the ambush. An Apache Indian could not have executed this maneuver more cleverly, and I smiled at myself for having ever been foolish enough to believe the traditional story of how the silly ostrich buries his head in the sand and believes that he is thereby concealed."—Philadelphia Post.

SOME WRITERS.

Goldsmith wrote the "Vicar of Wakefield" in six weeks. It is said to have been a story of his own recollections. Thomas Dun English wrote "Ben Bolt" in 1843, and some fifty years later George Du Maurier made the tender song famous the world over.

It has been mentioned as a proof of Alexander Pope's love of economy that he wrote most of his verses on scraps of paper and particularly on the backs of letters. Charlotte Bronte's "Jane Eyre" was rejected by nearly every publisher in England before it scored one of the greatest literary successes in the world's history.

Whittier, the poet, it is reported, said to the doctors in attendance a day or two before his death, "You have done the best possible, and I thank you; but it is of no use—I am worn out."

The poet Helene on the day after his marriage drew up a will in which he bequeathed all he possessed to his wife on condition that she married again. He desired, he said, that at least one man should regret his death.

The Arab Mother's Advice.

When an Arab damsel gets married, her mother gives her the following advice for securing her future happiness: "You are leaving your nest to live with a man with whose ways and habits you are unfamiliar. I advise you to become his slave if you wish to become the absolute mistress of your husband. Be satisfied with little, endeavor to feed him well and watch over his sleep, for hunger begets anger, and sleeplessness makes a man crossbrowed. Be dumb as to his secrets, do not appear gloomy when he is merry nor merry when he is sad, and Allah shall bless you."

A Way Old Acquaintances Have.

"It is too bad," said the visitor from home, "but people who acquire wealth are not the same to their old friends." "Perhaps there is a reason for that," replied Mrs. Cumrox reminiscently. "People who acquire wealth have feelings the same as any one else, and their old friends sometimes have a very superior way of saying: 'Humph! I know them when they were as poor as Job's turkey!'"—Washington Star.

In the Melee.

Attorney—Did you see the plaintiff strike the defendant? Witness—Oh, did, sir. Attorney—And was the assault committed with malice aforethought? Witness—No, sir; it was committed with a mallet behind the ear.—Judge.

Irrepressible.

"Fast as you run, do devil out of your town," said Brother Dickey, "he puts up at de best hotel in de nex' one. No body sets on him hard enough to keep him down."—Atlanta Constitution.

Modern inks date back from 1708, at which time researchers of Dr. Lewis and Hibancourt in the chemistry of ink began.

An Uncrowned King of England.

Writing of Prince Albert in an article in the Century on "The Royal Family of England," Professor Oscar Brown says:

From the first the prince identified himself with the queen in all her labors. They had one mind and one soul. Rising every morning with the dawn, the prince went into his workshop, where their two tables stood side by side, and read all their correspondence, arranging everything for the queen's convenience when she should arrive. He knew all her thoughts and assisted all her actions, yet so adroit and self sacrificing was his conduct that all the merit and popularity came to her. The people had no idea that he interfered with public affairs, yet had they reflected they must have known that it was inevitable. Once during the Crimean war, when the notion got abroad that the prince had intervened, there were tales of treason and of sending him to the tower. Yet on the day of the prince's death, on that cold, icebound Saturday, Charles Kingsley said to the present writer, "He was king of England for twenty years, and no one knew it."

Druggists' Colored Bottles.

Those huge glass bulbs of red and yellow and blue water which are called show bottles are gradually ceasing to be a feature of the decoration of druggists' windows. In the past they were as necessary to every drugstore as a red and white pole is to a barber shop, but they have not, as the pole has, a well defined history. All that druggists know of them is that they have been always used as window ornaments. The brilliant liquids that they contain are made cheaply and plainly of chemicals and water. Thus a solution of copper and ammonia makes blue, Bichromate of potash makes orange. Aniline dyes have of late been used in the chemicals' place, but the liquids fade in a strong sunlight and have frequently to be renewed. The liquids colored chemically, on the other hand, last well enough forever.—Philadelphia Record.

He Ran.

Sol Smith Russell had three young nieces living in the west, of whom he was very fond. On one occasion, so the story goes, he took the youngest of them for a walk and bought her some candy on the agreement that it was not to be eaten until they reached her home. They started, but before they had gone far the little girl proposed, "Let's wait." Her uncle declined, and there was long pleading, all to no purpose. Finally the little girl stopped, knelt down on the pavement and offered up the petition, "God, please make Uncle Sol wait."

"It was simply a question of my losing my dignity or my losing her faith in God," said Mr. Russell in relating the incident, "so we ran as fast as we could for home."

Sounds of Words.

A negro boy was in the habit of giving his name as "Nedleudinezza Belt-tikidishazza Sham Ham Jufac Maxwell Brown," mispronouncing nearly every word.

The sound of words has a great attraction for the negro, and he uses them regardless of their meaning. A negro woman was with difficulty prevented from naming her child "Crucifix," the sound of the word attracting her.

A negro preacher in a sermon declared emphatically:

"I comes not to contaminate any other sect"—repeated still more emphatically—"I comes not to contaminate any other sect; I comes to exonerate your minds."—Independent.

Business and Policy.

"And now, my son," said the father, "as you are about to go into business for yourself, it is well for you to remember that honesty is the best policy." "Yes, father," said the noble young man.

"That honesty is the best policy, and," continued the old man, "if you will study up the law you will be surprised to find how many things you can do in a business way and still be honest."

Not What He Meant.

Scenes, having sent a stupid servant to do an errand, was greatly annoyed on finding that he had done exactly the opposite to what he had been ordered. "Why, you haven't common sense," he remonstrated.

"But, sir!"

"Shut up! I should have remembered that you were an idiot. When I'm tempted to send a fool on an errand again, I'll not ask you. I'll go myself."

A King's Economy.

An example of George III.'s economy is so curious as almost to suggest that it must have betokened approaching insanity. He actually let out the cream colored horses used for his state coach to a jobmaster, who "thinks from the great receipt of custom that they will draw him into an easy fortune."

Woes of the Collector.

"Did you get anything out of her?" asked the business manager of the collector. "Yes; she paid me a compliment. Said she wouldn't be afraid to trust me with the money if she had it."—New York Times.

Human Nature.

The sermon of the best preacher in the world will not make as much impression upon a congregation as the sudden pattering of rain on the window panes of a church containing two new bonnets.

THE EGYPTIAN LOTUS.

It Grows Perfectly When Planted in Rich Mud.

Egyptian lotus roots may be obtained from any florist. The seed will readily germinate if a hole is filed or drilled through the hard shell that moisture may penetrate the kernel, otherwise they will lie dormant almost indefinitely. It is perfectly hardy and comes to perfection when planted in shallow water with rich mud and full exposure to the sun—simply naturalized in the same environments that suit our native water lily. Artificial ponds or cement basins are often made for the accommodation of this and other water lilies. Such tanks should be two or three feet deep and of any size and outline desired. Twelve by twenty feet is a nice size for the amateur. It is best to plant the lilies in boxes, say three feet square and one foot deep, filled with good rich soil and sunk in the tank.

The lotus submits gracefully to cultivation in tubs. Ordinary half barrels will do for tubs. Fill them two-thirds full of rich garden soil, in which plant the roots (I prefer roots to seed); then fill tubs full of water and set in a warm, sunny place. In winter remove the tubs with their contents to a cellar. A beautiful aquatic garden may be had by arranging several tubs of lotus and *Nymphaea* into a mound or circle and filling the spaces between them with ferns, arrowheads and other moisture loving plants.—Home and Flowers.

How Tropical Fruits Are Protected.

It may have struck you that most tropical fruits have thick or hard or nauseous rinds, which need to be torn off before the monkeys or birds for whose use they are intended can get at them and eat them. Our northern strawberries, raspberries, currants and whortemberries, developed with a single eye to the pretty robins and finches of temperate climes, can be popped into the mouth whole and eaten as they stand. They are meant for small birds to devour and to disperse the tiny undigested, nutlike seeds in return for the bribe of the soft pulp that surrounds them. But it is quite otherwise with oranges, shaddockes, bananas, plantains, mangoes and pineapples. Those great tropical fruits can only be eaten properly after stripping off the hard and often acid rind that guards and preserves them.

They lay themselves out for dispersion by monkeys, toucans and other relatively large and powerful fruit eaters, and the rind is put there as a barrier against small thieves who would rob the sweet pulp, but be absolutely incapable of carrying away and dispersing the large and richly stored seeds it covers.—Cornhill Magazine.

Dr. Johnson's Marvellous Memory.

Dr. Johnson, the Urna Major of English literature, had a prodigious memory and at one period of his life employed it in reporting parliamentary debates. Once Dr. Hawkesworth read to him a poem which he intended to publish and asked his opinion of it. "Why, sir," said Johnson, "I cannot well determine on a first hearing. Read it again." Hawkesworth complied. The next morning, the subject of the poem being resumed, Johnson said he had but one objection to it, that he doubted its originality, and to prove his statement repeated the whole poem, with the exception of a few lines, which so alarmed Hawkesworth that he declared he would never again read anything of his composing to Johnson, who, he said, had a memory which would convict any author of plagiarism.

Anxious English Mothers.

In England it is a weighty matter when there are several daughters in the family and no man in sight to marry them except the curate. The romantic reserve with which we Americans approach the subject of settling our spinster relatives is about as a pea in their eyes with the put pants ladies on the piano legs.

Over there they neither put pants on the piano legs nor pants on the piano legs, but they do have a very different way of settling them.

The Rubber Plant in 1735.

The first accurate information regarding the wonderful rubber plant was furnished by La Condamine, a French scientist who was sent in 1735 by the government of France to measure an arc of the meridian near Quito. This brought him to the heart of the rubber growing country, and much valuable information was thus obtained.

Advantages of Matrimony.

Friend—Did you lose anything in the Bustall bank?

Depositor—Not a cent.

"Well, well! If you knew the thing was going up, why didn't you say so?"

"I didn't know. I had to go off on business, so I left my wife some blank checks. She went shopping."—New York Weekly.

Opportunity Passes By.

"He is looking out for an opportunity," explained the young man.

"From what I have seen of him," replied the man of business, "I would infer that he expected it to pass the club window."—Chicago Post.

Illusion and Delusion.

She—After all, what is the difference between illusion and delusion?

He—Illusion is the lovely fancy that have about ourselves, and delusion is the foolish fancy that other people have about themselves.—Life.

NOT A LOVE KNOT.

Embarrassing Experience of a Woman in a Street Car.

A handsomely dressed lady riding recently in a crowded Amsterdam avenue car was fortunate enough to have a seat, but when nearing her destination she noticed that the lacing of her shoe was unfastened. It was the work of a moment, but a very trying moment, to stoop down and knot it securely. When this was accomplished, her hat fell readjusted and her gloves once more carefully put on, it was time to signal the conductor. This she did and after two vain attempts to rise looked around indignantly to find the cause of her retarded movements. She came to face with a very irate gentleman who had been sitting next to her.

"Madam, madam, where are you trying to take me?" he demanded.

"I—you?" she stammered.

"Yes. Look there!" He pointed to the floor, and in an instant she had grasped the situation. By mistake in groping she had found the lacing of his shoe, which she had taken for the other end of her own, and had fastened them so carefully together that it took the gentleman quite five minutes to effect a release, under the amused glances of the other occupants of the car, which had traveled twice that number of blocks before the lady was ready to give another signal.—New York Times.

A Chinese Proverb.

An attaché of one of the legations in Peking at the time when two continents were in a high state of tension was a guest at the Army and Navy club in New York a few evenings since, says Leslie's Weekly. "I had occasion," he said, "to meet Li Hung Chang, who, despite the heavy suspense overhanging his country, seemed to be, to us, painfully cheerful. One of the party present, a man in authority, referred to Li's merriment.

"The interpreter mentioned it to his master, who requested him to make the most beautiful reply I ever heard. 'Tell him,' said the interpreter, quoting his master, 'that the Chinese have a proverb which I commend to all in all conditions: You cannot prevent birds of sorrow flying over your head, but you can keep them from stopping and building nests in your hair.'"

"I immediately wrote it down, so I know the quotation is correct."

American "Prudishness."

In the face of foreign criticism and in the face of one's own dismay at existing conditions with regard to divorce, we still sympathize with the report administered to an alien critic of our people who had declared in private conversation that America seemed to be afflicted with the disease of prudishness. The answer was somewhat in these words (the incident occurred several years ago): "Yes, probably it is true that Americans are prudish; but, considering the revelations that have recently taken place concerning certain circles in London and considering the condition of a good part of the Parisian stage and of French literature, I, for one, am willing that we should pay that price for the knowledge that, on the whole, Americans are the dearest people in regard to the relations of the sexes on the face of the globe."—Century.

The Sun as a Timepiece.

In a Georgia justice court a colored witness was asked to name the time a difficulty occurred.

"It wuz in fodder pullin' time, suh," he replied.

"You don't understand me," said the judge. "I mean what time was it by the clock?"

"Dey wazn't no clock dar, suh," said the witness.

"Well, by the sun, then?" "Now," exclaimed the witness triumphantly, "sence you hez come right down ter business I'll tell you plahn. Ef de sun had been a-shinin' hit would er been 'bout two hours on a half by sun, but ez de sun didn't show his face 'tall dat day I couldn't say fer sarth's des what time hit wuz!"—Atlanta Constitution.

Wrists and Temperature.

Actors and actresses say that if one of their number faints cold water is poured on the wrists. The result is always immediate recovery. Athletes engaged in feats of endurance understand the importance of keeping the wrists cool in summer and warm in winter, but the general public goes on wearing tight gloves and heavy cuffs during the dog days and then wonders why it is hot. Taking off one's gloves, especially in church, makes quite a surprising difference in one's temperature. Tight sleeves, above all things, make the wearer hot in oppressive weather.

The Cautious Crowd.

"They're raising a safe into the tenth story next door."

"Yes."

"Yes, and there are a lot of people down below who don't seem to realize that the safe side of the street is the side directly opposite to the safe's side."—Philadelphia Catholic Standard.

Energy.

Strong impulses are but another name for energy. Energy may be said to be bad uses, but more good always be made of an energetic man than of an indolent and inactive one.

A June Bride.

Dearborn—Was your wedding ring?

Yonke—Wabab!—None of them.

SUNDAY SERVICES.

Congregational Church—Rev. L. H. Thayer, pastor. Morning service at 10:30. Sunday school in the chapel at 12:00 m. Young people's meeting at 6:45 p. m. Vesper service at 7:30. All are welcome.

Baptist Church—Rev. George W. Gile, pastor. Services at 10:30 a. m. Gile, 7:30 p. m. Sunday school in the chapel at 12:00, m. Prayer meetings Tuesdays and Fridays at 7:45, p. m. All are invited.

Freewill Baptist Church—Rev. Charles H. Tucker, pastor. Preaching at 10:30 a. m., and 7:30 p. m. Other services at the usual hours.

Christian Church—Rev. F. H. Gardner, pastor. Morning service at 10:30. Sunday school at 12:00 m. Young people's meeting at 6:30 p. m. Evening service at 7:30. Y. P. S. C. E. meeting on Tuesday evening, and prayer meeting on Friday evening at 7:30. All are welcome.

Old St. John's Church—Episcopal—Church hill—Rev. Henry E. Hovey, rector. Sunday at 10:30, a. m., morning prayer, litany and sermon. Holy communion first Sunday in every month and the greater festivals, 12:00. Holy days, 10:30 a. m. Evensong Sunday at 7:30 p. m. Fridays, Ember days in chapel at 7:30, p. m. Parish Sunday school in chapel at 3:00, p. m. At the evensong service, both in church and chapel, the seats are free. At all the services strangers are cordially welcomed and provided for.

Christ Church—Episcopal—Madison street, head of Austin street—Rev. Charles LeV. Brine, rector. On Sundays, holy communion at 7:30, matins or holy communion at 10:30, a. m. Sunday school at 12:00, m. Evensong at 7:30, p. m. On week days, matins (daily) at 9:00, a. m., evensong (daily) at 5:00; on Friday, evensong at 7:30, p. m. Holy communion Thursday at 7:30, a. m. On holy days, holy communion at 7:30, matins at 9:00, a. m., evensong at 7:30, p. m. Seats free and unappropriated. Good music. All welcome.

Methodist Episcopal Church—State street—Rev. Thomas Whiteside, pastor. Morning prayer at 10:00 o'clock. Preaching service at 10:30, a. m. Sunday school at 12:00, m. Junior league at 3:30, p. m. Epworth league and church service at 7:00, p. m. Social service Tuesday evening and class meeting Friday evening each at 7:30 o'clock. All are cordially invited.

Church of Christ—Universalist—Pleasant street, cor. Junkins avenue. Rev. George E. Leighton, pastor. Morning prayer and sermon at 10:30 Sunday school at 12:00, m. Administration of the holy sacrament the first Sunday in the month at 11:45, a. m. Good music. Y. P. C. U. meetings every Sunday evening at 6:30, in the vestry. Strangers are especially welcome.

Unitarian Church—Rev. Alfred Gooding, pastor. Morning service at 10:30. Sunday school at 12:00, m. All are invited.

Advent Church—C. M. Scamans, pastor. Social service at 10:30, a. m. Preaching at 2:45 and 7:30, p. m. Sunday school at 12:00, m. Prayer service at 7:15, p. m. All are invited.

Church of the Immaculate Conception—Rev. Patrick J. Finnegan, pastor.

Social service at 8:30 and 10:30, a. m. Vespers at 7:30 p. m.

Y.M.C.A.—William Frederic Hoehn, general secretary. Association rooms open from 9:00, a. m., to 9:30, p. m. Men's meeting, Sundays, at 3:30, p. m. All are welcome.

Salvation Army—Meetings will be held all day in the hall on Market street. Hall drill at 7:30 a. m. Roll call meeting at 10:00, a. m. Free and easy at 3:00, p. m. Salvation meeting at 8:00, p. m.

Christian Science—Woman's Exchange building—Services Sunday at 11 a. m., and Wednesday at 7:30 p. m.

All are invited.

People's Church—Rev. R. L. Harris, pastor. Service from 11:00 to 12:00, a. m., Sundays. Sunday school at 3:00, p. m. Praise meeting at 7:30, p. m. Preaching at 8:00, p. m. Young people's meeting on Wednesday evenings at 8:00 o'clock. Cottage meetings on Friday evenings at 8:00 o'clock. The public is cordially invited to attend these services which are free to all.

First Methodist Church, Kittery—Rev. Elbridge Gerry, pastor. Preaching at 10:45, a. m. Sunday school at 12:00, m. Prayer meeting at 7:00, p. m.

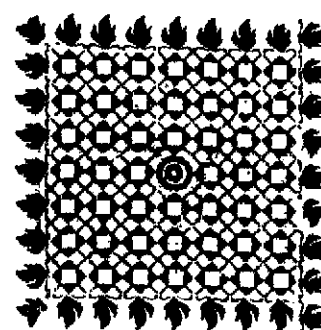

Second Methodist Church, Kittery—Rev. E. C. Andrews, pastor. Preaching at 10:30, a. m. Sunday school at 12:00, m. Epworth league meeting at 6:00, p. m. Evening service at 7:00 All are cordially invited.

Advent Christian Church, So. Eliot—Rev. George J. Brown, pastor. Sunday school at 10:00, a. m. Prayer meeting at 11:30, a. m. Preaching at 2:00, p. m. All are welcome.

Second Methodist Church, So. Eliot—Rev. Elbridge Gerry, pastor. Sunday school at 1:00 p. m. Preaching at 2:00, p. m. Prayer meeting at 7:30, p. m.

WASHINGTON LETTER.

Washington, D. C., June 10.

The investigations of the scientists who looked down into the crater of Mont Pelée indicate that the assurances of the governor of St. Pierre to the effect that there was no danger, were not well founded.

The court martial papers in the case of General Jacob H. Smith stationed in the Philippines, have been received by the secretary of war. Now we shall soon learn whether the charges made against General Smith by democratic senators and exploited at such length in democratic organs have a good foundation in facts.

Acting Governor Wright has cabled the secretary of war from Manila that civil government has been established in all but three of the so-called civilized provinces. In two of these, the military government will continue only a month further, the third, Samar, will remain under the control of the army a little longer. Things seem to be progressing quite satisfactorily in the islands.

Hawaii affords a good example of the possibility of American trade in the Philippines. Our sales to the former islands increased from \$100,000 in 1874 to \$19,000,000 last year; this with an area of less than 7,000 square miles and a population of less than 120,000. With peace established in the Philippines and the prosperity and development of those islands assured, the annual trade between them and the United States should reach \$150,000,000 or more in the next ten years. The area of the Philippines is over 15 times greater than that of the Hawaiian Islands and the population is over 50 times as large.

Senator Curmack's gratuitous slap at the army when he interrupted Senator Lodge and remarked sarcastically that no doubt the soldiers would deny a certain story "as all soldiers in the Philippines would be required to do by their officers" was followed by hisses and cries of "Oh, no!" and "no-no-no!" from the galleries, an unprecedented thing in the United States senate. Applause sometimes breaks out over the dignity of the senate, but the hissing of a speaker is something unheard of. The provocation, however, was great. Democratic politicians are beginning to realize the rising temper of the people on this question of slandering men who are periling their lives in the distant tropics for the honor of the flag.

Senator Hoar proposes to remain firm in his republicanism. He has no intention, he says, of becoming a democrat. How does he feel then about the announcement that the Democratic campaign committee will distribute 1,000,000 of his anti-republican Philippine speech?

The Boer war is ended, the Philippines are practically ruined and the Chicago tenement's riot is settled. Once more doth the gentle Dove of Peace hover over the earth.

Long and vainly have the democratic faithful strained their eyes on the distant horizon searching for a Moses to lead them out of the political wilderness; but no Moses has appeared and it seems they are doomed to wander aimlessly about for another forty years.

The republicans passed a bill the other day reimbursing a man, to the extent of \$17.11 for damages resulting from some government experiments in connection with gun testing. Here is an excellent chance for the democrats to assail "reckless public expenditures," as a commanding campaign issue. It would stand a much better chance than the Philippine issue.

The movement to preserve feathered songsters and plumage birds against slaughter for hat trimmings has received a new impetus. A society of bird lovers has recently been organized to further the movement and the first fruit of this effort is an ordinance in Chicago forbidding the use of song birds or any part of their plumage as millinery decorations. Notice has been served on milliners that the new regulations will be strictly enforced.

Mrs. William A. Hodgdon, Miss Lulu B. Rancall and her friend, Miss Marion Welsh of Brookline, Mass., and Miss May Yates are passing Sunday at the Hodgdon cottage, Foss Beach.

Miss Ruth Laighton of Medford, Mass., is the guest of Miss Katherine Coolidge, at the Governor Wentworth mansion, Little Harbor.

Gerald Allen of St. Louis, Mo., was in town on Friday in his way to his summer home at Rye Beach.

DON'TS FOR THE SUMMER BOARDERS.

Don't ask for ice water. The well water is as cold as any self-respecting stomach will ask for. Don't expect half a pint of cream on twenty-nine strawberries. Don't ask for a glass of milk at every meal. It is not good for you. One homestead cow equals eight quarts of milk, equals one quart of cream and three meals a day for eight people! And where does the baby come in? Don't ask for ice cream nine times in seven days. The icehouse is four miles away.

Something wrong

Many children who are troubled with indigestion, sour stomach, griping pains, colic, convulsions and similar symptoms of worms, are many times treated for other diseases. The one remedy that will relieve them is **True's Pin Worm Exelix**. It is the best remedy in the world for worms. It is unexcelled as a tonic and restorative of vital energy. For 16 years the children of the world have been cured by this medicine. Give it to your children to guard against worms. Sold by all druggists, etc. Send for booklet.

DR. J. F. TRUE & CO.,
Auburn, Me.

TRUE'S PIN WORM EXELIX
WILL CURE IT

"Let the GOLD DUST wash do your work."

GOLD DUST

is a woman's best friend when wash day comes around. It makes the clothes sweet and clean. Takes only half the time and half the labor of soap. Just follow directions on package.

Made only by **THE M. K. FAIRBANK COMPANY,**
Chicago, New York, Boston, St. Louis.
Makers of OVAL FAIRY SOAP.

Don't wear too many starched things. Steam laundries are not found on every farm. Don't think any old thing will do to wear on the farm, but don't "dress" too much. Both extremes are in bad taste. Don't imagine that because country fare and ways are different, they are not so good as city things and ways. They may be better. Don't ask for things you don't see or for things out of season. It's two miles to the store. Don't try to be superior person. It may lead to mistakes. Don't indulge in improving conversation—unless you need it. Don't sit up late or be late to meals. Both are insanitary. Don't complain because there are no links; life is more than gold. Don't ask for sterilized milk for the baby—unless you bring your own sterilizer. There are other "don'ts," but they can all be condensed into the Golden Rule.

SHOW WHAT YOU CAN DO.

Beginning September 22d, a genuine old-time Mechanics Fair will be held in Boston. This will be the first time in four years that the Fair has been held. The great popularity of this exhibition is well known. No charge is made to exhibitors for space. The utmost effort will be made this year to make the Fair attractive. We advised all interested in arts, sciences, agriculture, etc., to avail themselves of this opportunity to exhibit their work or products. Application for space, and further particulars should be addressed to J. C. Horner, Manager Mechanics' Building, Boston, Mass.

Inasmuch as the Mechanics Fair is an old New England institution, would it not be a good plan to give it liberal support by exhibiting at that time any products coming from any section of the state? Such an effort will surely be of advantage to this locality as well as to the exhibitors themselves.

A SUMMER-LIKE REMINDER.

The New Jersey coast is one of the most popular of summer bathing places and its wide-spread favor is greatly enhanced by the exceptional train service and accommodations provided by the New Jersey Central. Its lines reach Seabright, Monmouth, Normandy, Red Bank, Long Branch, West End, Elberon, Asbury Park, Ocean Grove, Avon, Spring Lake, Belmar, Beach Haven, Atlantic City, Ocean City and Cape May, and at each of these places there are admirable hotels and boarding houses. The New Jersey Central has prepared a hotel book, which gives complete information regarding the hotels on its lines and this booklet is sent free upon application to Gen'l Pass. Agent, New Jersey Central, New York.

MORE STRANGERS.

Late Friday afternoon word was telephoned to the police station that a couple of rough appearing strangers were loitering about the residence of George H. Joy on upper Middle street. Police Officers Shannon and McCaffery responded and brought the two hobo back with them to the station house where they were locked up on the charge of drunkenness.

MEAT ONCE A DAY.

Theory That Average Family's Food Is Too Heavy For Health.

Our mistakes in eating begin with our breakfast. In many families, perhaps in most, this meal commences with fruit and cereals, goes on to chops and potatoes, hot breads and coffee and concludes with griddlecakes and sirup. At noon, when a man's stomach is only beginning to rest from all this, he has a steak, more potato, bread and butter, coffee and pie, while at home his wife has a slice of cold meat, a cup of tea and a piece of cake. At night the two sit down to dinner, with roast beef, potatoes and bread and butter as the staples of the meal.

Now, no one but a woodchopper or a hunter can possibly eat meat—above all, red meat, such as beef and mutton—three times a day without inviting uric acid to come and take up its dwelling in his system. Nor can he eat white bread, potatoes and pastry day after day without inviting dyspepsia. One has only to let a doctor trace back these diseases to their source to be quite certain on these points.

But if we decide to give up these things, determine to have meat and potatoes only once a day and red meat only once a week; if we taboo pastry, the starchy vegetables, the white bread and heavy sweets, what have we left for the family meals? "Nothing," the distracted housewife will exclaim despairingly at first thought, but really the matter is not as difficult as it seems.

In planning the meals on this basis there is, first of all, chicken, which is invaluable, for it may be cooked in a dozen different ways and seem a new dish each time, and turkey, duck and goose as well. Then there are the white meats, lamb and veal; fish in its multitudinous forms; there are game in its season, vegetables and fruits, with numberless varieties of soups, and the simple sweets, which are made principally from milk and cream, and all forms of breads.—Harper's Bazar.

A PLEASING FRENCH TRAIT.

Love Between Brothers a Strongly Marked Characteristic.

One of the ways in which the close union of French family life shows itself is the great affection of brothers for each other. There is an intimacy between them in good and evil fortune which one does not find in other countries. A brother who takes a high position by his talents loses no opportunity to forward the interests of one of lesser ability or of no ability. He never treats the latter as a drag on him, and perhaps secretly feels that he is one. Married brothers often like to live in the same house, on different floors, and to hire summer villas in close proximity.

Most of the famous Frenchmen whom I knew had each a brother to whom he was devoted. Louis and Charles Blanc, though so dissimilar in appearance, tastes, disposition, and married to women who disliked each other, were, morally speaking, Siamese twins until death severed the bond. The same might be said of the Garnier-Pages, of Jules Favre and his brother Leon, of Ernest and Arthur Picard, of Puech, the sculptor, and his brother the painter, who were known in their student days as the Siamese twins. If not infrequently happens that brothers go into literary partnership. Instances that occur to me are the Goncourts, the Rosnys, the Marguerittes. It would be impossible to discern the work of one of any of these brothers from that of another. What is very curious, each brother, as in the case of Charles and Louis Blanc, Ernest and Arthur Picard, Jules and Leon Favre, differed strikingly in every characteristic from the other. The dissimilarity of the Marguerittes is so great that one wonders how brothers could be so unlike. Alphonse Daudet was not a bit like his brother Ernest, an accomplished novelist also.—London News.

The Great Rat Dance of 1874.

During the fall of 1874 rats became a serious menace to the farmers of Jackson county, Kan., and one night at a meeting of the literary society in the Coleman schoolhouse it was proposed to organize a hunt. Sides were chosen, and it was agreed that the losers were to pay for a supper and a dance. Three weeks were fixed as the limit of the hunt, but this was reduced to ten days when it was discovered that warm weather was making it impossible to preserve the tails, which were to be used in making the count. At the end of the ten days both hunting teams assembled at the schoolhouse with their tails and a count was made, with the result of showing 6,350 dead rats in total. More than 1,000 of these had been killed on the farm of G. W. McKeon alone. After the count supper was served, and a dance followed until daylight. The affair is still known in local annals as the great rat dance.—Haltom (Kan.) Signal.

Sham Antiques.

A Pompeian tile selling for \$2 is evolved from a medicine bottle costing less than a penny, and steel files are melted and hammered into Venetian daggers. The final operation is to sprinkle them with nitric acid to give them an ancient appearance.

Scientific Fact.

Doctor—Speaking of your trouble with your husband, do you know that it is a scientific fact that meat causes bad temper?

Mrs. De Jarr—Oh, yes; I have noticed it always does, and especially when it's burned.—New York Weekly.

Made and Making Up.

Mr. Spinks—Well, Willie, has your sister made up her mind to go to the concert with me?

Willie—Yes. She's made up her mind, and she's making up her face now. She'll be down in a minute.

SATURDAY, JUNE 14, 1902.

It appears that the southern democrats regard it as all right to get drunk with a negro. It is not drinking with one, but eating with him that constitutes in their eyes a sin and a shame. For instance, the Arkansas democrats have unanimously renominated Governor Jeff Davis, who was expelled from church membership for being drunk with negroes on a train, while every southern gentleman, save one, was filled with horror and indignation when President Roosevelt entertained at dinner Booker Washington, a gentleman with few intellectual and no moral superiors in the south.—Kennebec Journal.

HANG OUT YOUR FLAG.

This is Flag Day, something no patriotic citizen should forget. "Old Glory" ought to be displayed not only on every public building in the United States, but on every private residence, but out your flag. No matter if it isn't one of those handsome, large banners of gleaming silk. If it be only a square foot of cheap cloth, so long as it bears the stars and stripes, hang it out. Let every breeze that blows today,—from whatever quarter,—brush a National ensign, here, there and everywhere.

Isn't the original significance of graduation being lost sight of in the flourish and display of the modern event? Hasn't graduation become to be as much of a parade of dress as of a display of education? Isn't it at present quite as much a question of what graduate shines in the most expensive graduation outfit as it is what graduate shines in the class part to which her rank has entitled her? You frequently hear of bright scholars who are not able to graduate because they cannot afford to do it and it is undoubtedly true that a greater part of those who do graduate cannot afford to under the present regime of swell display. Is it in accord with the spirit of public schools that scholars who can afford to take a high school course cannot afford to graduate? Why should the few who can afford to indulge in all this display and parade of dress set the pace for the many who cannot. The pomp and swell of graduation has been a good deal overdone. The question with the average graduate has become to be during the closing year of school life—"How is the dress going to compare with the others?" Instead of how is my rank going to compare with the others?—Boston Herald.

There were intimations that Secretary Moody took his place as head of the navy department not for himself, so to speak, some things might be worked out that would be good for the service and would not shake up some dry bones that have accumulated in the department. This very thing has happened, and it looks as if some of the naval officers who have had easy times before would have to take to sea duty more in the future. Secretary Moody has issued such an order and it will be enforced. Mr. Moody has his mind made up to this. His duties in congress and his subsequent brief service up to this date as the head of the navy has convinced him that there are too many officers of the navy in Washington and he believes that the interests of the service require their detail to ships either in commission or to be placed in active service for participation in the fall and winter manœuvres. In this opinion President Roosevelt concurs, and he is able to judge, because of the fact that he himself acted as assistant secretary of the navy prior to his enlistment in the Spanish war. Of course the naval men do not like the order. That goes without saying. The more they can remain around Washington with its sociability and camaraderie the better they will like it, but inasmuch as there is a call that there are not officers enough for the navy the ordering of these capital hangers on into duty on ship-board seems in the right direction.—New-Buryport News.

AN UNCONVENTIONAL GIANT.

Representative Sulloway, the New England giant of the house, throws conventionalities to the winds these warm days, and appears in the house restaurant without his coat. Ordinarily he wears a long Prince Albert, but this becomes intolerable to a man of his size during the heat of the day, and he therefore does as he would do in his own home among the granite hills of New Hampshire—"shucks" his coat and enjoys himself.

Mr. Sulloway is chairman of the committee on invalid pensions, and as such probably works as hard as any member of the house, and there is no question but that he earns all of his annual salary, for he is a very conscientious worker. His committee has already considered several thousand private pension bills this season.—Boston Journal.

SNAP-SHOTS.

Chicago beef packers somehow continue to attract more interest than Chicago's college professors.

The Yaqui Indians are the Boers of Mexico. They are entitled to the world's sympathy in their struggle.

J. J. Hill says that he has enough railroads. Then there's a chance for the rest of us to own a few.

Tammany people are taking advantage of Richard Croker's absorption in campaign affairs to try all sorts of schemes against him.

Secretary Moody's idea that sailors should go to sea is sure to meet with some covert denunciation as a mere landman's opinion.

Thomas A. Edison says that his present aim is "autism for all." This looks like another way of saying that the safest side of an automobile is the inside.

There is no possibility that the operators will consent to arbitrate the differences between themselves and the consumers as to how much coal ought to cost per ton.

The pole vault exercises in which West Point cadets excel are doubtless intended to qualify them for jumping over the backs of their superiors after they get to be captains and majors—a la Carter and Bliss.

As there are no more killed and wounded records from South Africa or the Philippines, it seems to devolve on the clerk in congress to give us a daily mortality list on bills and resolutions. The record is heavy.

The Associated Press man in London woke up to the opportunity presented in Mr. Choate's dinner to the king, but he neglected to tell us whether Minister Choate, Whitlaw Reid or Pierpont Morgan looked best in lace breeches.

John D. Rockefeller says that friends are more to be desired than money. It is a noble sentiment, but is no doubt liable to be suspended when it comes to securing the eternal enmity of a man who is trying to do a little oil business on his own account.

CLIPPINGS.

Isn't it about time for the General convention to meet again and revise the articles of our first National Journal?

Our humorists are going too fast. We can better spare some of our philologists; they are easier replaced.—Halt! non-American.

Formerly the pictures of the summer artists showed fine landscapes and seascapes. Now they show nothing but offers hard at work.—Boston Journal.

Senator Billy Mason of Illinois has announced that he is a republican and uttered a presidential boom for himself. Now let the eagle scream.—Nashua Press.

The best personal understanding between Germany and the United States came of the last peace conference for the world's welfare of the world.—New York Times.

The United States Medical Association has just announced that it will not accept of any foreign members who are not American.

When Secretary Hanna was asked about the reported break with the administration, he answered only, "Committed." His reply can hardly be characterized as classic English, pure and unadorned, but as Mark Twain would say, it is a large word, which defines the democracy of today as Columbus could not do.—New York Mail and Express.

Bishop Burgess, of Long Island, addressed the Columbia college to whom he preached on Sunday to do away with the necessary rule of abstinence. "Away with the gate money," he cried. This is all very well, but without gate money

you pride yourself on your wisdom in using the PROPHYLACTIC TOOTH BRUSH.

You will be actually conceited when you have bought and used a "KEEPCLEAN" HAIR BRUSH.

"Clean things for clean people," say we.

The Herald's Daily Puzzle.

"ROVER, HERE IS YOUR DINNER." WHERE IS THE DOG?

how are the necessary and legitimate expenses of even amateur athletes to be met?—Philadelphia Press.

Mr. Bryan has characterized Mr. Cleveland as the betrayer of his party, while Mr. Cleveland has characterized Mr. Bryan as one who has strayed off from false gods. Mr. Cleveland wants harmony, but at the expense of Bryanism. Mr. Bryan wants harmony, but at the expense of Clevelandism. With Mr. Cleveland in the long again, therefore, full of light if a little disfigured—Mr. Bryan must gird up his loins afresh.—Washington Star.

FOR THE FOURTH.

New Noise Producer On The Market This Year.

Among the Fourth of July noise makers is a new arrangement similar to the cartridge case, which explodes in a torpedo with a tremendous report. The ammunition comes in two sizes, and the noise is made especially for it.

The single serpent of indoor fukies is a new thing, and needs more than any previously shown.

Another novelty is a bicycle protector against dogs, an article of German manufacture. The loop of a string attached to the protector is thrown over the handlebars, a quick pull and a series of sparks are emitted from the roll shaped protector that is expected to terrorize the most ferocious canine that ever attacked a wheelman.

There have been some improvements made in the line of fireworks, but on general principles they are just the same articles that have been put for years.

ALL FOR ONE PUPIL.

Audience, Music, Flowers, Prizes And Address For Lone Girl Graduate.

St. Augustine's Parochial School of Union Hill, N. J., has never held commencement exercises, because none of its pupils has ever completed the course of study. Seventeen-year-old Anna Conway completed the course this year, however, and the many in charge of the school have decided to hold commencement exercises for her. The parish will be invited to see the girl graduate presented with her diploma, and there will be music, flowers, prizes and an address to the class. Miss Conway will deliver both the salutatory and the valedictory.

ON THE DIAMOND.

Bill Hamilton has inspected some ginger into the Haverhill team.

Bill has got rid of the talkative and voluble Moll and Concord "fans" who had been bothering him with his presence for a while at last.

John A. Conway has been elected captain of the Phillips Exeter team for their next season's team. He is the only person who has ever been thus honored in Exeter athletic history.

It looks very much as if Manager Ryan of the Exeter team were trying to secure a team for next year. He is the only person who has ever been thus honored in Exeter athletic history.

It looks very much as if Manager Ryan of the Exeter team were trying to secure a team for next year. He is the only person who has ever been thus honored in Exeter athletic history.

It looks very much as if Manager Ryan of the Exeter team were trying to secure a team for next year. He is the only person who has ever been thus honored in Exeter athletic history.

he is a clever catcher and should make the big league in a season or two. His friends are positive that he can make good as a catcher with any team.

SENSE AND NONSENSE.

Teacher—Johnnie, how many legs has a lobster?

Johnnie—Teacher, is that all that bothers you?

Note—Johnnie was spanked and sent home.

A small boy was seen by his father to go one evening mysteriously into the garden and bury a piece of paper as deeply as he could. When he had gone to bed the father dug the paper up and read the following: "Dear Devil—Please come and take Nurse Jane.—Your loving Tommy."

"What makes you call your mule Ping Pong?"

"It reminds me of my happy days when I was workin' for some of dem select gemen at de club," answered Mr. Erasmus Plinkley. "When I see drivin' dat mule I have to talk to him jes' about the same as dem gemen was talkin' to de balls when they was learnin' to play de game."

It is extremely improbable that either the Portland Express or the Advertiser will issue any paper, today. The forces of these two papers met in deadly combat on the baseball diamond after they had seen yesterday's edition safely off, and the Portland physicians and undertakers had a busy night.—Kennebec Journal.

A good story is told of the bishop of New Caledonia, now on a visit to England. He recently addressed a large assembly of Sunday school children, and wound up by asking in a very paternal way, "And now, is there a-a-n-y little boy or a-a-n-y little girl who would like to ask me a question?"

A thin, shrill voice called out: "Please, sir, why did the angels walk up and down Jacob's ladder when they had wings?"

"Oh, ah, yes—I see," said the bishop. "And now, is there a-a-n-y little girl who would like to answer little Mary's question?"—Chicago Record-Herald.

William Gillette, the actor and playwright, refuses to regard either profession seriously. He once went to see Irving play "Macbeth," sat through the performance without comment with a friend and then started for his hotel. "Well, what do you think of Irving?" said his friend as they walked. "He would be a great comedian if he could only sing," was the grave reply.—Philadelphia Times.

"It seems to me," said Mr. Billings, "that I had never known a drawer to stick so in all my experience. I got hold of both handles, squarely and fairly braced my knees against the next drawer under that one, and pulled as hard as I could and couldn't budge it."

"Then I tried to work it out, pulling first at one end and then at the other. I could start either end a little, but that's all; I'd get about half an inch on it, and that's all I could get. Then I tried pulling on it the way you do car windows when they stick, but was no use; couldn't move it. After that I tried the straight pull on it again. I did joggle some things off the top of it and then I was maddening on going for the ax when Mr. Billings, passing the door, looked in."

"Is the drawer locked, Ezra?" she said.

"And by jimmie, hoe-cakes, the drawer was locked. The key was in the lock and somebody, I or somebody, had some time or other turned it, and it had never occurred to me to try it now. In fact, I never thought anything about the key, or the lock at all, one way or the other; but when I had turned that key, the drawer opened just as easy. And I made up my mind that hereafter the first thing I should always do when I came across a bureau drawer that stuck would be to see if it wasn't locked."

ORGANIZED IN KITTELY.

Organized at the office of the Lawyers' Incorporation and Transfer company the Idaho Mining company, to carry on the business of mining and milling gold, silver and other metals. Capital \$5000. Pres. Charles C. Smith; treas. Mark W. Paul.

The longest days of the year are almost at hand.

the remedy that cures a cold in one day.

OILING THE ROADBED.

President Tuttle of the Boston & Maine Makes Statement About It.

Says the Boston Transcript: A morning paper states that it is understood that the Boston & Maine railroad is to discontinue the oiling of its roadbed, after having given the experiment a three years' test; that there has been complaint that the dust arising from the oiling had damaged the clothing of passengers, and indicating generally that the oiling experiment has not been a success.

President Tuttle said to a Transcript representative today that there was no foundation whatever for the statement that the Boston & Maine has discontinued oiling its roadbed, and that he had never heard of a complaint being made by any patron of the road of any damage to his, or her, clothing, or otherwise, by reason of this oiling experiment; that when this experiment was tried, three years ago, it was believed that after the roadbed had had three successive annual oilings, the oil would have penetrated to a sufficient depth in the road's ballast so that further oilings might be dispensed with for a greater or less number of years. The facts have seemed to demonstrate the correctness of this theory, and consequently certain sections of the road that have had three years' oiling will not this year be oiled; but upon certain other parts the oiling will be continued where considered necessary.

To an inquiry as to the availability of cinders for laying dust on sandy roadbeds, he replied that this device is as old as the use of bituminous coal on locomotives; that for a year or two this process of treatment has very satisfactory, but that after the coats of cinders have been tamped in, in repairs of tracks, and thereby mixed generally with the ballast, they become pulverized into an impalpable black dust that is even more troublesome than the finest sand ballast; that in his judgement it is a very open question whether the laying of dust on sandy roadbeds, by spreading cinders, has generally proved satisfactory. He also said that it was found to be true that upon roadbeds constructed of fine sand, the oiling was not as satisfactory as upon coarser ballast, but that every experiment of the Boston & Maine, in oiling its different kinds of roadbed, had proved quite satisfactory, and that the Boston & Maine has not discontinued the practice anywhere by reason of disappointment in the results.

PENSION CHANGES.

The following pension changes resulting from the issue May 22 are announced: New Hampshire—Original, James S. Plaford, Portsmouth, \$8; William H. Keboe, Portsmouth, \$8; increase, restoration, release, etc., Thomas F. Foote, Frances-town, \$10; original widows, etc., Minnie L. Stover, Portsmouth, \$8.

WEATHER INDICATIONS.

Washington, June 13.—Forecast for New England: Fair in west, showers in eastern portions, Saturday.

SATURDAY, JUNE 14, 1902.

With coal exceedingly dear today,
And hourly going higher,
'Tis safe to say
That Mont Pelée
Will have to draw its fire.
—Washington Star.

CITY BRIEFS.

The harness racing season is near at hand.

Where was the flag on the city building today?

Have your shoes repaired by John Mott, 24 Congress street.

Compare the Herald with other evening papers.

Passengers for York were numerous at the railroad station this morning.

The price of coal will be jumped by the Messrs. Walker on Monday next.

There is lively interest manifest in next week's encampment of the National Guard.

The clerks are now planning on when they will pass their annual summer vacations.

Pleasant weather tomorrow means that the cars on all the trolley lines will be crowded.

The spring rush of work among the milliners is now over and they are taking the usual summer's rest.

There will be a bacchanalian kerfuffle to the graduating class of the High school at the North church on Sunday evening.

The Young Portsmouth base ball team and the Young Sawyer of Dover are fighting to supremacy at the Plains this afternoon.

Dyspepsia—bane of human existence. Burdock blood purifier cures it, promptly, permanently. Regulates and tones the stomach.

Lost—The June of which the poets sing and for which all hearts yearn September is all right in its place, but it should wait its turn.

The locomotive at the yard of the Frank Jones Lumber company has been sent away for a general repainting at the Manchester Locomotive works.

The Knights of Columbus held a whist party and dance at their rooms next Monday evening. They have some handsome prizes for the winners at whist.

Quite a number from this city attended the graduation exercises of the York High school on Friday evening, which were also the dedication of the new High school building.

The naval appropriation bill has passed the senate with the provision for building ships at the government navy yards stricken out. This is deeply regretted by the friends of the Portsmouth navy yard.—Manchester Mirror.

This will remind you that the pain of strains, bruises and sprains, common incidents of active outdoor life is drawn from aching bodies by Perry Davis' Painkiller, as a magnet draws bits of iron from sand.

Black Show Girl is having a prosperous run at Wallace's theater, New York. A recent addition to the evening's entertainment is a pug-pug act, which at the conclusion of a song and dance scatters pug-pug balls out into the audience for souvenirs.

OBSEQUIES.

The funeral of John Reagan was held from the Church of the Immaculate Conception at eight o'clock this morning. Rev. Father Finnegan officiating. The body was interred in Calvary cemetery. In charge of Undertaker Oliver W. Ham.

Funeral services over the body of Vera Dorothea Tucker were held at the home of her parents, Rev. and Mrs. Charles H. Tucker, on Bridge street at two o'clock this afternoon. Interment took place in Harmony Grove cemetery under the direction of Oliver W. Ham.

POLICE COURT.

Thomas Loughlin was arraigned before Judge Adams in police court this morning on the charge of selling a half pint of malt liquor to George Clark. Loughlin pleaded not guilty. Clark testified that he had purchased beer of Loughlin's bar tender and had also given a man named Kelly money with which to treat with. This Kelly denied and the court discharged Loughlin, saying that he was not responsible for the acts of his bar tender. Clark was given a suspended sentence.

FOR ISLES OF SHOALS HARBOR.

The river and harbor bill, which became a law on Friday by receiving the president's signature, contains an appropriation of \$30,000 for improving the harbor at the Isles of Shoals. This is for the rebuilding of the breakwater between Cedar and Smuttynose Islands, which has been advocated for many years, and will make Star Island roads a safe anchorage.

DEPUTY SHERIFF FOR HAMPTON BEACH.

William N. Hodgdon of this city will today be sworn in as a special deputy sheriff and for the next three months will be on duty at Hampton Beach. The fact that Salisbury and Newburyport are no license towns this year will no doubt drive a lot of rough scruff in the direction of Hampton and the beach management propose to keep order even if it takes a dozen deputies.

SUMMER SCHEDULE.

New Arrangement Of Trains On Eastern Division Of B. & M.

Many Additions To The Schedule And Changes In Running Time.

The New Schedule Will Prove Of Great Convenience To The Traveling Public.

The summer train schedule on the Boston and Maine railroad system goes into effect tomorrow (Sunday). Additional trains will be run over all the lines entering this city and changes have been made in the running time of several others.

This additional train service is of great convenience to the traveling public and means the more speedy transaction of all kinds of business. The adoption of the summer arrangement is of special interest to Portsmouth people, on account of the immense summer travel through this city. For this reason, the Herald has prepared a list of new trains on the Eastern division, the Dover and York Beach branches as well as changes in the time of the arrival and departure of trains.

Train No. 583, leaving at 1:35 a. m., has been added to the week day schedule between Portsmouth and Dover, and trains Nos. 707 and 711 have been added to the Sunday schedule, the first leaving this city at half-past one and the second at five o'clock in the afternoon.

Train No. 59 will depart at 12:29, instead of 12:15 p. m., on week days, and the late train to Dover on Sunday night No. 71, will leave at 8:57, instead of at 8:52, as it is, during the winter.

Train No. 582 will arrive in city from Dover at 8:25 on week days, and additional have been made to the Sunday schedule in trains 706 and 710 which will arrive at 1:10 p. m., and 4:50 p. m., respectively. Train 582 will arrive at this station on Sunday night at 9:13 instead of at 9:45.

There will be seven trains daily between Portsmouth and York Beach, leaving at 6:29, 8:29 and 11:29 a. m., and at 12:45, 2:07, 4:55 and 6:45 p. m. Returning these trains will arrive at Portsmouth at 7:55, 9:05 and 10:25 a. m., and at 12:55, 2:00, 4:15 and 6:30 p. m.

Trains No. 1, 21, and 41 have been added to the week day schedule from Boston. The first named stops at this city, arriving at 8:15 a. m. The second reaches Portsmouth at 11:11 and leaves for Portland at 11:16 a. m. Train No. 41 arrives at 2:50 p. m., and leaves ten minutes later.

Train No. 29 will arrive at 12:15 p. m., instead of at 12:10. No. 127 which during the winter arrived at 9:15 p. m., and left at 9:20, under the summer arrangement arrives at 11:15 and leaves at 11:20, and No. 71 will arrive at 8:10 p. m., instead of at 8:15 and leave at 8:50 instead of at 8:55.

Westward bound trains have been added as follows: No. 62, arriving from Portland at 1:33 and leaving at 1:38; No. 76, arriving at 3 p. m., and leaving at 3:05; No. 109, which arrives at 6:25 p. m., and stops "ten minutes for refreshments."

Train No. 2 which under the old arrangement pulled into this station at forty-five minutes past three. In the morning, will under the new schedule arrive at 3:29 and remain eight minutes, pulling out at 3:47. Train No. 60 will reach Portsmouth at 7:59 in future, and No. 41 will arrive at 10:15 and leave for Boston at 10:55. These are all morning trains. Train No. 102 will arrive at 7:15 p. m., leaving at 7:23. Train No. 2 will arrive and depart at the same time on Sunday as on week days.

You should cut on this schedule and paste it in your hat for future reference. It may save you from losing a train sometime, and it may refresh your memory in regard to a new train which may be just the one that you want to take for Boston, Portland, York or Dover.

OUR SHADE TREES.

Have Citizens of City Any Rights That Corporations Are Bound to Respect?

Editor of the Herald:—It is current report that the local attorney of the Lowell syndicate, of the traction company, or whatever organization it may be that is now setting up lines of trolley poles in the city, on remonstrance being made to him in regard to the havoc the company's men are making with the shade trees of the city, replied that his company had a perfect right to cut down any tree, on private land or in city streets, that is in their way, or that they decide to be in their way.

Now I do not believe the company's counsel said this; if he did say it, I do not believe it is true, although I must admit that the company seems to be acting on the belief that they have such a right as is mentioned. And anybody else will admit it, too, who will take the trouble to follow along the line of new poles on Deer and New Vaughan streets and Baynes avenue, and not the reckless devastation wrought on those streets. It is said the row of fine trees on Maplewood avenue, opposite the Franklin schoolhouse, has been decided by the pole setters to be in the way, and that all of them are to come down, too; and that our "reform" city government, on being appealed to to prevent further vandalism in this line, to the permanent disgracement and injury of the city, calmly replied that nothing could be done that there was no remedy, no redress!

Mr. Editor, the Boston & Maine managers have been badly criticized by diverse citizens of Portsmouth on diverse occasions, for doing things they should not have done, or omitting to do things they should have done, in regard to our local street railways, but they cannot justly be charged with having needlessly and wantonly destroyed or mutilated the shade trees of the city anywhere. On the contrary, a look along all the trolley lines will show that where pruning of trees was really necessary, only such

limbs as actually had to be removed were touched. Yet the Boston & Maine is looked upon by many of our citizens as a reckless oppressor, while the Lowell syndicate, which is now engaged in denuding our streets of shade trees and insolently telling the city that it cannot help itself, is exploited as a warm and philanthropic friend of the dear people. It takes a good many years for a shade tree to grow, and it is a sad thing to see numbers of large and beautiful ones sacrificed to the greed of a corporation which has received so many favors from the city that it apparently thinks it owns it. If there is any way in which its further ravages can be prevented active steps in that direction should be taken at once.

WOODMAN.

FLAG DAY COMMEMORATED.

National Colors Displayed All Over the City.

This is Flag day and patriotic citizens have accordingly hung the stars and stripes to the breeze, from their residences and places of business. It is not implied by the foregoing that those people who have not hoisted the National banner above their homes and business houses are unpatriotic, although it follows that no man would make a public display of the flag unless he were actuated by patriotic motives.

Flags adored greeted the sun this morning. Residents of every section of the city honored old glory in the manner most fitting, on this the anniversary of its natal day. Market street easily carried off first honors, with thirteen flags displayed from eleven buildings. On Congress street there were but three, two of these floating above U. V. C. hall and the third displayed from National block.

The following firms decorated the fronts of their stores with the national colors: G. B. French company, H. C. Hopkins & Co., G. M. Vaughan, Bennett & McCarthy, W. E. Paul, A. N. Wells, Ruser and Cotton and H. M. Tucker.

The labor unions which have quarters at a Longshoremen's hall also proved that their friends had not forgotten Flag day and the Portsmouth Athletic club showed itself to be, as ever, patriotic. The Union Veterans Union the loyalty of whose members was proven many years ago, hoisted the national colors over their hall on Congress street, and two red, white and blue banners floated above the Longshoremen.

Flags were displayed from private residences all over the city, more especially at the west and south ends. A large number was probably displayed on Middle street, than on any other residence street, withington street a close second.

OBITUARY.

Margaret Sullivan.

Mrs. Margaret Sullivan died at her home on Green street at one o'clock this morning.

Cora Ida Amce.

Cora Ida Amce daughter of Mr. and Mrs. Percy Amce of Kittery Point, died at the home of her parents on Friday, aged six years, two months and thirteen days. The funeral will be held at two o'clock on Sunday afternoon, from the First Christian church.

John W. Darton.

John W. Darton died at his home in East Boston, Mass., on Friday. Funeral services will be held at his late home Sunday afternoon and interment will be in Harmony Grove cemetery in this city.

Mrs. Sarah E. Kennard.

Mrs. Sarah E. (Pelree) Kennard died at her home on Middle street this Saturday morning. She was the widow of Capt. William M. Kennard, to whom she was married September 14, 1877, and the daughter of the late Col. Joshua W. Pelree. She is survived by one sister, Miss Ann W. Pelree, and two brothers, Joseph W. and William A. Pelree, and several nieces and nephews.

HIS HONOR'S DECISION.

That a Saloon Keeper Is Not Liable For Acts of His Bar Tender.

The decision of Judge E. H. Adams in police court this morning that a saloon keeper is not responsible for the acts of his bar tender, has created much discussion about town especially among the local fraternity. Judge Adams discharged Saloon Keeper Loughlin, who was charged with selling beer to a man named Clark, after it was brought out in the testimony that it was the bar tender who was alleged to have made the sale and not the proprietor himself. In rendering his decision Judge Adams said, "It has recently been decided that a saloon keeper is not responsible for the acts of his agent. As the witness admits that Loughlin did not make the sale there is no case against the respondent. I therefore discharge him."

BACCALAUREATE SERVICE—NORTH CHURCH.

The graduating class of the High school will attend service in a body at the North church, on Sunday evening. A special order of worship has been prepared. The baccalaureate sermon will be preached by the pastor of the church. The evening hour of service has been chosen, that the occasion may not conflict with the regular morning services. The friends of the class and school are especially invited to take part in the service.

ADVENT CHRISTIAN CHURCH.

At the Advent Christian church on Hanover street, it will be Children's day tomorrow. At 2:45 p. m., the pastor will speak to the children. Children especially invited. In the evening at 7:30 there will be a concert at which the children will present an interesting program. There will also be a social service at 10:30 a. m., and children's meeting at 6 p. m. All are invited to these services.

Three spectres threaten that baby's life, Cholera, infantum, dysentery, diarrhoea. Dr. Fowler's Extract of Wild Strawberry never fails to conquer them.

A HOSPITAL TENT.

The Latest Departure Of The Forepaugh And Sells Brothers' Circus.

Probably the latest departure of the modern three-ring circus is a "hospital tent," where all wounded animals are taken to be cared for by veterinary surgeons until their injuries heal.

The Forepaugh and Sells Brothers combination have such a department, and when the road season begins the hospital tent is quite frequently taxed to its capacity. As this institution carries over 500 head of horses, it is quite natural that many are injured in the course of a season. Lewis Sells, general manager of the show, is nothing if not particular about the care of his horses. He gives personal attention to this matter, and will not tolerate shabby treatment to any one of the vast herd of animals.

On a recent occasion the writer heard Mr. Sells reply to the query of an attendant, who wanted to know if he had better kill a certain horse which had a broken leg.

"Certainly not," was the answer. "Suppose your leg was broken, would you want somebody to take you out and put several bullets into your body? Of course you wouldn't. Neither does that horse. Take him to the veterinary surgeon and tell the surgeon I said he should dress the wound. He will come around all right in time."

The incident serves to illustrate Mr. Sells' views on such matters generally. He is very fond of horses and insists upon their proper keeping. In warm weather he causes each animal with the show to be washed with soap and water from head to the tip of the tail almost daily. In order to better care for the injured horses was the reason which prompted him to establish the hospital tent, which is supplied with a wealth of surgical instruments and medical preparations.

AT THE HOTELS.

The following were among the guests at the hotel on Friday: Alvord, Jones & Harmon, Hyde Park, Mass.; Kearsarge, Thomas H. Dearborn, Dover; Will Clark, Rochester; George L. Pelree, Boston; Rockingham, W. H. Cross, Chicago; William M. Laughlin, Philadelphia; F. Segelkin, New York.

A large number of prominent people were registered at the Rockingham on Friday, the particulars of whose visits have already been recorded. Friday, like the previous days of the present week, was a busy one at all the Portsmouth hotels, and there were few vacant rooms after the last train came in from Boston.

Portsmouth has jumped into prominence very rapidly within the past few months," said a hotel clerk, this morning. "It has been in the hotel business in this city for a long time, but I never know so many well known business men and financiers to stop here in a year before, as have registered at one or another of the local hotels, this spring. It seems almost like a western boom town of the early days."

The hotel registers contain the names of a good many visitors from the southern states at this season of the year. Southern people who can afford it, travel north when the heated term begins just as wealthy northerners travel south at the beginning of winter. Virginians, Floridians and Carolinians do not like the southern summers any better than New Englanders like the northern winters.

AT THE NAVY YARD.

Thomas Hildebrand, clerk in the construction department, was in Boston Friday.

The workmen's train has carried several extra passengers for the last few days.

The steamer Allee Howard is expected to be ready for her trips to the yard today or tomorrow.

The Dufferin sailed Friday afternoon for Newport, the repairs to her engines having been completed.

The advance of excavating on the new stone dock can be plainly seen since the night force was put on.

The iron work on the masts of the U. S. S. Detroit has been completed and they will soon be painted.

V. G. McIntosh, stenographer to the naval constructor, leaves for New York Monday for a week's vacation.

It is thought that more men will be put to work in the steam engineering and a call has been made for such.

Lay Director Foster is getting the stores of the U. S. S. Detroit ready to put aboard that boat just as soon as she is ready to put in commission.

It is expected that a steam test of the boilers and engines of the U. S. S. Detroit will take place next Monday. This will be the first trial the ship's machinery has had since she arrived here.

OUT OF TOWN INVESTORS HERE.

A party of New York and Boston investors, eight in number, came to Portsmouth on Friday, and inspected the new plant of the Rockingham Light and Power company, now nearly ready for occupation.

The party was composed of the following well known financiers and business men: H. C. Tunney, L. T. Dyer, A. M. Hyatt, New York; Frank Day, H. A. Royce, F. B. Royce, Howard Abel, F. M. Stearns, Boston. The gentlemen made their headquarters at the Rockingham during their stay in this city.

A GOOD CATCH.

The alwife season for 1902 is at an end, the run this year being much larger than for several seasons past. S. Roswell Peavey estimates the total pack on the Spinnecott at about 1200 barrels, that in Exeter at about 900 barrels. It was said that the catch was larger than in any year since 1890.

The schooner Herman F. Kimball is now being loaded with the season's catch, which will be freighted to Boston.

Is it a burn? Use Dr. Thomas' Electric Oil. A cut? Use Dr. Thomas' Electric Oil. At your druggists.

PERSONALS.

J. T. Gallagher of Boston was in this city today.

Frank Talpey of York was a visitor in town today.

Dr. and Mrs. A. C. Hoffenger went to Boston this morning.

Dr. W. O. Junkins has returned from a brief trip to Montreal.

Dr. W. O. Junkins returned this morning from a visit to Montreal.

Willis Alvin returned Friday from a visit of several days in Boston.

George E. Macomber of Augusta, Me., was a Portsmouth visitor on Friday.

Prod W. Patterson, nephew of Robert Patterson, graduates from Tufts College this year.

Mrs. C. Morris Fredick of Malden, Mass., is visiting her mother, Mrs. Mary F. Mathes.

Agent Donohue of the Eldredge Brewing company, at Haverhill, was in town on Friday.

Mrs. Mary L. Teague of Court street is passing a few days in Boston and surrounding towns.

Mrs. F. W. Hartford has been called to Glen Falls, N. Y., by the serious illness of a relative.

Miss Agnes Norton went to Newfields, Me., today, for a week as the guest of Miss Florence Lombard.

Walter Hodgdon, fireman at the Frank Jones Lumber company, is passing a week's vacation in Maine.

Charles E. Almy of Hon. Frank Jones' office has gone to Auburn, Mass., to pass Sunday with his family.

Messrs. John G. Tobey, Jr., and Guy E. Corey go to Concord on Tuesday next to take the state bar examinations.

E. E. Mitchell, proprietor of the Hotel Mitchell, at Long Beach, York, was in the city this morning on business.

Miss Florence M. Morse, representing the New West commission, delivered an address at the North church chapel Friday evening.

Miss Marcia L. English of Brattleboro, Vt., is the guest of friends in this city until after the commencement exercises of the High school.

Charles W. Bradstreet of Winchester, Mass., for forty years in the carriage business in Boston, was at the Rockingham Thursday. While here he drove out and passed a delightful hour with his friend of many years, Hon. Frank Jones, and also called on Col. Aaron Young, in company with George H. Gilbert, an old friend of Col. Young.

BOTH DID WELL.

Tufts defeated Dartmouth at baseball at Medford on Friday, by a score of ten to three. Ira Nowick was in the box for Dartmouth and Waldo Clay of Acadia pitched for Tufts. This is the second time that Ira has pitched against Clay this season and in both instances he has been beaten. Had Ira received the support which was accorded Clay on Friday, however, he would have won. Tufts played an endless game, while Dartmouth made seven errors, of which Ira himself made two. Newell made two hits, one run, three put outs and one assist and struck out six men.

Walter Woods playing second base for Jersey City, had two put outs and two assists in the game between that team and Worcester on Friday. He made no hits and no errors. Worcester was the winning team.

WON'T SELL THEIR HALF.

The National bank directors claim that the Savings bank people cannot afford the building recently vacated by True W. Priest, without their consent, as they own half of the structure, and they refuse either to sell or to agree to the alterations, although they have been offered a large sum for their half. The matter will be brought before the law court for a decision, and pending this nothing will be done. The Savings bank people purchased the little building containing the saloon some time ago, and the proprietor was given a certain time to get out, that time being up yesterday.
